- The month saw the two major political parties MDC and Zanu PF agree on Constitutional Amendment 18, following the SADC brokered talks. The Bill paves way for synchronization of Presidential and Legislative elections. The Bill proposes the increase of constituencies from 120 to 210 Constituencies and from 66 Senators to 93. The Bill also provides for the incumbent President to appoint a successor. The agreement has resulted in mixed feelings with some being sceptical over whether this agreement guarantees free and fair elections. On the ground, ZPP recorded that intolerance is still high, despite agreement of the ruling and opposition party.
- The schools opened and teachers were on strike over low salaries. The strike has been on going since last term. This resulted in victimization of some teachers, who are members of the Progressive Teacher Union of Zimbabwe and those who were absent from work during the day when a strike was called. Cases were recorded in Harare and Mashonaland East.
 - Two cases of rape were recorded with one in Mashonaland East and another in the Midlands.
 - State agents including, the police continue to perpetrate human rights violations with some police officers asking people to chant Zanu PF slogans.
 - Some villagers have been displaced for allegedly supporting the MDC. In some cases, the Village Heads and Chiefs have told villagers that those who do not support the ruling party can expect to receive land and food from 'Blair' or 'Britain'. In some cases, the eviction of villagers is preceded by singing of liberation songs at the homes of the victims at night.
 - Access to information still remains a challenge particularly in rural areas where some citizens were victimized for listening to Studio Seven and for reading the Zimbabwean newspaper. These are the few sources which offer an alternative source of the information distinct from the state controlled media.
 - Freedom of expression continues to go unabated as some persons were victimized for wearing MDC T- shirts. The people found wearing these T/ shirts have been asked to remove the t- shirts which are then torn or burnt there and then. In some cases those found wearing the t- shirts are then asked to chant Zanu PF slogans
 - In the Midlands, there were incidences of members of the Zimbabwe Congress of Trade Union (ZCTU), being victimized for mobilizing people for a stay away.
 - There is also a significant number of incidents of people being victimized for expressing their views on the current economic hardships.

Recommendations

- Political party leaders need to educate their supporters against a non violent approach particularly in the forthcoming elections.
- State agents such as the police and soldiers need to carry out their duties with impartiality.
- There is also need to ensure that the state desists from using army personnel as law enforcement agents.

Perpetrators by Affiliation

**ZIMBABWE
PEACE
PROJECT**

Zanu PF continues to have the highest number of perpetrators (76%) (406) followed by the state which has 11 % (7). Mashonaland East and Midlands have the highest number of both victims and perpetrators and have the highest incidences of violence.

Victims by affiliation

The MDC had the largest number of victims with a total of 390 (63%). ZPP noted that the number of persons of no known affiliation was also significant with a total of 134 (26%). ZPP documented incidences where Zanu PF has been victimised by members of the opposition. There have also been instances of intra party violence in both Zanu PF and MDC. The bulk of the violations however have been attributed to Zanu PF. There has been a steady increase in MDC members being both perpetrators and a decline in them being victims compared to the month of August 2007.

CASES OF HUMAN RIGHTS VIOLATIONS

Figure 3: Comparison chart showing the human rights violation cases received from the Northern and Southern regions during the month of September 2007

METHODOLOGY

This report is based on reports from ZPP long-term community based primary peace monitors (two in each of the 120 electoral constituencies of Zimbabwe), who observe, monitor and record cases of human rights abuse.

The monitors compile reports

that are handed over to ZPP Provincial Coordinators who manage ZPP offices in the ten administrative provinces of Zimbabwe.

Upon receipt and verification of the reports from the monitors, the Provincial Coordinators compile provincial monthly

monitoring reports, which are then consolidated at the national office, into the ZPP monthly monitoring report. In addition, ZPP reviews relevant literature including acts of parliament, policy documents and newspaper articles.

ZIMBABWE PEACE PROJECT

The Zimbabwe Peace Project (ZPP) was conceived shortly after 2000 by a group of Churches and NGOs working or interested in human rights and peace-building initiatives, and was to become a vehicle for civic interventions in a time of political crisis. In particular ZPP sought to monitor and document incidents of

BACKGROUND & FORMATION

human rights violations and politically-motivated breaches of the peace e.g. violence.

Today, ZPP's member organisations include, the Catholic Commission for Justice and Peace (CCJP), Zimbabwe Council of Churches (ZCC), Evangelical Fellowship of Zimbabwe (EFZ), Zimbabwe Election Support Network (ZESN), Counselling Services Unit (CSU), Zimbabwe Liberators' Platform, Zimbabwe Civic Education Trust, ZimRights, Civic Education Network Trust.(CIVNET)

GOAL AND OBJECTIVES OF THE ORGANISATION

ZPP was established with the aim of promoting peaceful co-existence and to help reduce political conflict and violence through monitoring, investigating and researching the causes and nature of violence and circulating widely the results of such activities. The organisation also aims to help resolve politically related conflicts, and to identify victims and perpetrators of

such conflicts, the former of whom will be assisted by being given any support they may require, e.g. legal, medical or material assistance. ZPP aims to work in cooperation with any authorities, institutions and individuals to achieve its objectives of curbing violence and upholding human rights.

VISION

To see Zimbabwe transform into a society that cherishes the pursuit and realisation of justice, freedom, peace, human dignity and development.

MISSION

ZPP is a community based Trust that promotes peace through documenting human rights violations and disseminating them to stakeholders and policy makers.

GOAL

To reduce violence and human rights violations through community-based and national monitoring, documentation of cases of human rights abuses, and making partnerships and alliances that tap the expertise and assets of local communities and local and regional organisations that will help the attainment of sustainable peace and democracy in Zimbabwe.

THE OBJECTIVES OF THE ZPP

- To be positioned as a leader in quantitative & qualitative trends, patterns on systematic human rights violations in Zimbabwe
- To be identified as a promoter of peace & campaigner against human rights violations
- To have sufficient capacity that enables ZPP to effectively deliver on its mandate
- To be part of a coalition that shares learning experiences & expertise with like-minded local, regional and international organisations
- To have victims access redress, and perpetrators brought to book
- To have MMR used as reference for perpetrator conviction, victim redress and policy influence by key stakeholders

VALUES

ZPP believes in and upholds the following moral principles and standards:

- Democracy and good governance
- Rule of law
- Probity & accountability of public office
- Factual & credible documentation of human rights excesses
- The protection of individual group rights and freedoms, and the human worth.
- Non partisanship and impartiality in dealing with situations of conflict and human rights abuses
- -Gender sensitivity and Equality of all mankind.

ACTIVITIES

The organisation is engaged in the following activities to achieve its goals:

- Monitoring all forms of violence and human rights abuse and collecting data on conditions, practices and policies which affect the human rights, freedoms, dignity and livelihood of people, e.g. the availability or otherwise of food;
- Recording and documenting cases of conflict and human rights violations;
- Networking strategically with other organisations able to assist victims and perpetrators;
- Conducting follow-up investigations to gather enough evidence to build up water tight cases for purposes of litigation;
- Ensuring that certain verified cases of violence and human rights violations are litigated and perpetrators are punished; as part of an anti-impunity drive through the courts
- Providing basic counselling services for both victims and perpetrators of violence and human rights abuses;
- Training monitors
- Referring of victims of violence and human rights abuses to organisations better placed to offer relevant assistance;
- Researching on causes, degree, effects of violence and human rights abuses, and ways of eliminating and avoiding conflict and human rights violations;
- Promoting dispute resolution and conflict management interventions;
- Issuing policy briefs to influence policy decisions deterring the culture or institution of violence and human rights abuses.

UNIQUENESS

The organisation's strength lies in the fact that it is perhaps the only permanent community-based civil society organisation with a country-wide grassroots presence. ZPP has two trained primary monitors deployed in each of the 120 electoral constituencies of Zimbabwe.

The monitors are members of the communities within which they reside and work, and this gives ZPP the capacity to, among other things, 'sense' conflicts long before their symptoms spread.
