I think this election will go in good order as what they in the papers and radios we do not want short sleeve and long sleeve things

We need free and fair election

How can he do that alone. enough time is needed reform first

They want to prolong their stay in power to loot more. NO TO 31/07/06 ELECTIONS what's the rush for

It's okay nothing is wrong

It's High Time That We Should Do Away With GP

I AGREE. ELECTIONS SHOULD BE HELD SOON OR BY THE END OF JULY, THIS YEAR.

Let's go for elections and once and for all, there will never be level field in any case, remember these guys are

Date will be ok if Mugabe can fulfill 1 security sector reform. 2 media reform, 3 repeal aipa/post. 4 rule of law. 5 completion all rules regarding roadmap 2 elections

We are sick and tired we want election today

It looks like there is nothing we can do about it, is there

Election is the only way to Zimbabwe future as long it is done peacefully free and fair

Mugabe must first clear the outstanding issues.

It's just ridiculous. We should all refuse and be bullied again

We need electoral reforms and other Acts, according to the new constitution!

Complete electoral reforms first the playing field is not level. we are heading for another disputed election.

Are these elections possible on this date since there are still some outstanding issues. What about the four months

Reforms first then he can set the poll date.

Sdc should help innocent. Zim

Impossible! People have not registered and this more time.

Nothing to worry about MT should not confuse us he should campaign

It's his personal opinion. he is now tired

We must not go for election without the hand of SADC or UN Mugabe imbavha

Mugabe shouldn't declare election date. Zimbabwe new constitution says election is set among the principals

Neutral election observers should be available at the remotest parts of the country particularly the rural areas where loopholes of violence and terror exist.

Politicians must agree before to avoid problems!

4 the elections I think the time has come what I need is free -violent elections whoever wins they are all Zimbabweans.-(,,Respect-)

Hazviite Reforms first what's the rush about?

I think that is right. They must not rush us, we need more time.

Mugabe alone can not proclaim election dates without consulting his counterparts who are in the GNU. He has to make sure all outstanding issues are done before fresh polls are held and this GNU was not formed by courts but Elections are overdue, & we're ready as voters. The economy is suffering. MT must accept the date & prepare. All we need are neutral observers. Other issues will be taken care of by whoever wins. The international community will assist.

We don't want to be bogged down in the current situation any longer.

Ngazvitwe zvipere

We voted for a constitution we did not know. 'Illegitimacy' does not exist in Zimbabwe and we are getting used to

All reforms must be completed. SADC should see to it that all reforms are done. Vari kuita maone. They know it.

It's their style. See history, at United Govt, Seats in parliament, and at const. Maybe they are fooling, fools

Reforms first!!!

That shows he is not willing to see free and fair elections.

No problem guys, let's finish him, even if the ground is not even he is not going to win this election

I better to go ahead with election

President Tsvangirai must stick to his words. Mugabe knows very well only buying time. Those two are kicking a dying horse. Zvakafanana nembwa kutorerwa bonzo pamuromo intombomiramira

He is now senile and insane as it is contrary to GPA. This must be rejected by SADC and AU. No reforms no

Anatha shameful election of course. MDC should stand principled against participation in a 'delayed match'

That's being coward why not follow the new draft that catching people unaware

No problem about that we are ready but first reform aya ngaitwe (the reforms must be made)

Kubatana's subscribers on 31 July Election Announcement

They should agree on a certain date what's so special about the date what we need are elections not fighting for We dont want blood shed in our country. why are we rushing proper procedure then election All agreements of GPA should be fulfilled first

Thus grossly unfair to many zimbabwean given the scenario in media and electoral sides which need reforms, PM THE TWO MDC PARTIES MUST FORM A UNITED FRONT WITH OTHER OPOSITIONS TO OVERWELM ZANU PF. IF IT WERE 31 AUGUST IT COULD BE FAIR, SINCE THE SECURITY SECTOR REFORM HAS YET BEEN MUGABE MUST SET A FINAL DAY WHEN HE WILL SIGN ALL REFORMS BEFORE END OF JUNE SO THAT WE CANG GO TO ELECTION WITH OUT THAT NO ELECTION

Ka one we suport MT

give us the chance to a memorable monthend of the century

WE CAN NOT HAVE ELECTIONS

Electorate wants legitimate yesterday! . So reforms now n elections 31 july.

No democrice why impor sing .

Let the games begin!!

If ever we do respect the constitution (new) of Zimbabwe let us look beyond individual interest and pursue national interests. Let us not approach courts on national issues which demands a national executive (GPA) approach agreement. Why abusing or fail to be abide by a fresh and best new Zim constitution. Pliz lets finish all outstanding political reforms first before any selfish interests .

Lots of things to be done.i think its too early and the ground is not level

No reforms,no elections!

I think Tsvangirai is afraid

Lets go and vote he who be a if far and free

Elections must be held!

Lets get over this thing called 'election' coz it has been dragged far 2 long! 31 July is indeed gud.

Due to the WTO being cohosted by zimbabwe n zambila @around the same period incidents of violence could be minimal. We require certainty which may come as a result of elections. we should go

Its ok lets hope we are going to have e free and fare election. because we dont want that life of bearer checks. we need e nomal zimbabwe

This only needs Jesus,s intervention lets pray for these leaders to act accordingly

I think MDC-T is not going to participate in the election if the election goes ahead as announced but what awaits us

We will meet him kuMaputo

We do not want any hinderances on registering to vote let people register without any hassles. Naive vamwe vanhu vachabowa. They will be shocked nezvichaitika ngavamhanye zvavo

Do what is in the agreement according to the Constitution

Election Road Map First Please.

Its not fair for the ordinary citizen. The situation is not conjusive for free and fair elections even the reforms in the new constitution are not yet done.

Mugabe is crazy and selfish

31 july is madness

This is unfortunate and expected that dialogue to prevail so as to come up with credible elections

This date is a non - starter people are registering and they need 30dys and thereafter the voter's roll needs inspection. Contesting parties need time to compain. 31 July doesn't allow all that. Elections should be done after

Its a disaster, we hv since smelled this roten cat. We wil see this time zvanyanya veduwe

What time is the nomination court,and what time is the delimitation of constituencies.its not possible by 31st july

I don't think its a good idea to that befor the GNU agree on election road map

An mdc boycott and possibly no gpa again. Its back to empty shelves

I dont think this is practical,this is just a political language

Election no reforms kwete

No to rapid election. Why so fast.

31 july its to fast why rush we are nw start fear no refomed had made so far

They should agree on a date set by all parties

Election road map Electral and media reform first

Kubatana's subscribers on 31 July Election Announcement

i think everyone must be given a chance to reg as a voter
The MDC .T. Is right every time.
Reforms first then free and fair elections
Its not feasible, what does the President want to achieve.
For me the date does not matter but the environment towards elections does especially with no meaningful reforms done. Desputed poll looms.
No Elections till reforms
Let's stop elections
MT is right he must reject because the deal is not yet completed.
Kana mapurisa neZBC zvichiri zveZanu PF pachange pasina sarudzo dzakachena pazuva ratarwa iri.
Global political agreement first on what was agreed 2the date to close
That is practically impossible.
We will not let such old man determined the future of the country
All reforms must be in place before election we dont want another GPA.
With the judiciary arguably compromised i doubt the legality of the decision by constitutional court.
Ma opinion is for September. Bcz some of the areas are registration dates are of July yet data is there to b verified to correct errors. Another issue is for number of registration Centers, they are very few . Eg Mabvuku Tafara there's one center Mwanandishe primary school .
THE PROCEEDINGS ARE NOT YET THRU. THE 54 DYS AFTER VOTER INSPECTION. THE VOTERS ROLE IN SHUMBLES. THE REFORMS NOT THRU.
I think all parties must sit and agree on poll dates for peaceful elections.
I think outstanding issues must be respected first, ie,, on generals,, respect the out come of will of the people after casting the votes,,! So address all issues first then we can see who is who,,!
Premature babies usually never make it. 31 July is too soon for Zim elections, we do not need to be plunged into another economic depression.
Mugabe must respect the will of Zimbabwean people no REFORMS no ELECTIONS Morgan must pullout its a bloody election
Voter registration continues to be delayed by the Mudede people and not all will be able to vote by that time.Also the security reforms are not in place and there is no intention to reform.Sadac will have to use force if need be with the help of South Africa.This is the only language ZANU PF understands.
Conditions on the ground are not conducive. Another disaster could be looming for the election would not free and Its a nonstarter it will be a one man race MT mast stick to his word
I don't support the date of elections. The playing field will not be even.
There should be a road map and 7ecurity sector reforms first.tfrom
Mugabe should seat down with other parties and agree on onething not a man band
I think Mugabe wants another Gnu -a negotiated arrangement where the vote does not count because he knows , absolutely knows, he cant win.
Not now reform and madia first
No elections b4 reforms. Vari kumhanyireiko?
Is not good ,why he rain to sets election date.Why MT rejects in to another illegitimate?
We need reforms before election
Mugabe must respect the laws of zimbabwe
Mugabe is just rude and his utterances are not acceptable. They should agree as principals to the GPA.
Mugabe is not a govt himself. On his own accord we can't do an election
I think election dates can be tabled by gnu principals as the new constitution allows the gnu a 4 months period of
As long they have not agreed it's null & void.the GPA is a costitution,so far it wil solve the whole issue.We are used to Mugabe's utterances
If reforms are implemented and guaranteed and mechanisms to avoid a repeat of the 2008 violence scenario are put in place,elections should go ahead as scheduled.it remains in him MUGABE to ensure that all is done before GPA completion first! B4lection. People's Safety FIRST.
All outstanding issues within the GPA to be resolved first for the election playing to be level.Registration exercise will end on 9July and to ve elections on 31July is not feasible.Thank you.

Kubatana's subscribers on 31 July Election Announcement

We don't have a problem with any date proposed what we need is reforms of security sector and media to avoid state sponsored violence beside that election no no no!

Elections without those key reforms should just be rejected. We don't want them.

WE WANT ELECTION BUT MEDIA AND SECURITY MUST REFORMED BOTH PARTIES SHOULD ADVERTISE AT ZBC. THAT'S MY OPINION

Election needs enough time for. Complaining

I think it's ok.

It's good

They should maintain on that rejection until all the GPA resolutions as agreed have been implemented.

M T is right. All G P A reforms designed to produce an acceptable election must be implemented first.

Zimbabwe is not yet ready for elections. The ground is not level. Security reforms have as yet to be implemented. What is the rush for?

All political parties should not participate until security sector reforms are agreed upon.

Reforms first.

Let's have reforms first plus registration kuno hakuna . Why?

Mugabe and Tsvangirai should sit and agree on election date after all the reforms. Mugabe has no power to decide on his own.

I am a teacher in Mberengwa. If elections are held before 31 July, I do not think the results will be credible. 2008 human rights abuses may be repeated. The playground needs to be levelled to allow all parties to enjoy free

It's good but have they agreed on remaining issues .all reforms to be done first to hold free and fair election.

That is not ideal for our country. No time is required to fine-tune the laws

I think there must be a unanimous agreement among the parties on setting election dates.

That as a day, practically it's something difficult to predict as Zimbabwe faces financial constraints, unless the stolen mineral resources are brought back to the country & all mining companies are restored to order. Let's hope we underline the word democracy as many times as we can. Thank u

Peaceful Mass Demo.

What's happening means Zanu PF may be defeated at the polls and then resort to the unreformed security sector.

We want this thing done and done with we need international monitors and observers at least

business is @standstill, so the sooner we have elections the better

It's high time we have to stand up as united Zimbabweans and vote for change and stand up for our rights

Elections 31 July is ok. The ruling of the constitutional court should be respected.

It's another road to a stolen election, Baba Jukwa was right

August/September is better after implementing pending issues

elections won't be held on this date due to several reasons: 1*UNWTO 2*improper voters reg. etc

Enough is enough, why is that President Mugabe is left to do what he wants, and not what the people want, does the entire world hear and see what the man is doing he must leave us to decide what we want we are not his people we are God's people whose date if he wants that date let him vote with his children and his wife I don't think it's Mugabe who is doing this there are Big sharks deciding this they just want blood to drink. We say no follow what

Did you ever notice a donkey pulling a cart with steel wheels in a sand road, the owner will be sitting in the cart beating the donkey if there is a partner discussing and arguing issues nothing to do with the donkey to erase the load.

The ordinary people are now following which Constitution? Maybe the inclusive government has a

Constitution different from the one which was voted by the people, all this arguments shows there is still no

SADC road map is the way forward. Unity govt is there by SADC. We've implemented some of the road map items,

let's finish off the road map. Why chicken out now? We hold those positions by SADC not by ballot.

No reforms no elections please. It does not help to siphon out money for shame elections. Kana vafunga kutonga nyika yacho nenzira iyoyi ngavatonge pasina kupedza mari.

Mugabe should consult

The G.P.A should be observed. No to illegitimate elections.

hope is SADC, otherwise bloodbath, let's comment after Maputo summit.

If it's about reforms media, security they must implement Zanu PF is known of its violence imhondi havadi kudyiwa

In nyanga army is always toy-toying singing "vudzeyi vavotere pamasvingo kuvhara hondo" do you think elections will be free and fair?

Kubatana's subscribers on 31 July Election Announcement

Mugabe is rushing for poll bloodbath

No election . We want free and fair election. Hatisati tambono ona mazita ariko here

It is logic for Zim to hold free and fair election so as to stop the rein of GNU which pulls the wagon different

I think all parties in the GPA should have agreed to the date

Principals should agree on policies before implementing them.

31 July is fine there is room for all parties to campaign

Yes the president is right, we must have elections.

Its high time the whole nation demonstrates against this anarch. We want free and fair elections as a step towards democracy.

We are not ready for elections.

Its most likely the PM and his allies will boycott poll

ONLY IF THE ROAD MAP IS CLEAN EVEN TOMORROW

Election by 31 is very dangerous without reforms

I do not see election at that date ,he want to inspire within the electorate

I think elections should be held by sept ,

ROAD MAP FIRST BEFORE ELECTIONS

zvinongoua zvakanaka

The better, Tsvangirai was supposed to press for reforms long back & Zimbabweans are tired of this old horse. He rules very powerful but for very few years if not days. Leave it to God.

Enough of these two guys disagreements we now want peace in this country and try to rebuild our country's economy. Let's go for elections even today .The so-called unity government has failed to produce as per expected.

I think having elections as soon as possible is more ideal, cause these leaders are living a superior life at the expense of grassroots people. So I really don't understand the reason why other leaders are rejecting. Hey let's have elections on 31 July. We are tired of this unity government.

Yes, it is the constitutional duty of the President to set election dates. Who else can do it? It's noble to uphold his duties. How does setting an election date results in an illegitimate govt? Thank you.

We have had enough time to put our house in order. Can't ask for more. Lets have them done.

Let them be done he will not accept defeat anyway so nothing changes

MT is insane

As long as it is before world tourism visit

Great...handeyi tinovhota. Do you think the environment will change? When you failed to do so in the past 5 years.

This is for Zimbabwe to decide, and we will decide

Polls should proceed

Lets vote to finish this nonsense

Like it or not the election must be held. Tsvangirai is a coward.

Asijiki. They are going to taste the poison. Wait, just wait!!!

Let's all go and vote

MT must legitimise the elections by agreeing to the set date. More over he is the winner and RGM is the loser b'coz RGM is not prepared. No primaries no preps.

The court has already made a ruling and the President is simply abiding

We are tired of this inclusive thing where no one assumes responsibility reforms are only possible under a

I THINK THIS IS THE BEST,BECAUSE IT GIVES US DIRECTION AND A FREE ZIMBABWE.

We need elections on the day mentioned just because we are tired about 3 parties.

why mr tsvangirai intent to destroy elections let him leave to participate and create the opportunity to mdc 2

The is in court the know what's good for the Zimbabweans

Pamberi nema elections muna 31 July 2013. No chickenning out

Whether Mugabe calls for elections on July 31 or now it will not turn the tide of defeat against him. People will still say what they said in March 2008 . MT should not be afraid !

This Unity Government is now overdue we want to see a way forward so its best that we go to the polls

what Mugabe did was just following a court order so I think this time MT is the one who want to derail the train.let the election come to pass coz it's him who used to shout the loudest saying the unity government has outlived its mandate. tit-a-tarring on these election have stalled almost every aspect from general business to even MPs duties coz evryone is busy campaigning

Its good to have election but the date was to be 27 July in case if to add more days we use Sunday 28 as our last electoral day. MT must not hassitate he is to win.

Election should go ahead as planned

Let elections go ahead. We are tired

Lets do what he want but without violence

IT IS OK WE WANT ELECTION AS QUICKLY AS POSSIBLE

the only way for a successful Zim are elections.I edge all Zim pple to do that in peace for there is life after elections It sounds good.

Only what we need piece piece but to me mugabe is right taneta takuda election

Let election be done on this date,delaying its wasting of time.

I think comrade R G Mugabe is right.MT is afraid to loose.

We have to go for the elections,but they have to be free and fair!

We don't want another 2008 again

Dates may matter not much,the important thing is an enabling violent free environment.

That is his own and not SADC. Africans are always fond of blood spill. UN should come in

PEOPLE MUST REJECT NOT BY KURWINASA BUT PRAYER IF YOU A BELIVER

They are the power, they do what they want.

Our economic leverage is at the peril of our politians. We must learn from our failures? The nose dive of the South African economy must create an advantage to us in the region.

Kana munhu wese apedza kuregister wese ari eligible to vote tozovota .Why is it retreat yapiwa 4 days dzevoter reg kumwe kwese kwapiwa 2days just bcz i ströng hold yeZANU Nyanhongo awhine manje rwendo runo anorohwa naHOUNARABLE MAFUME

We don't want another civil war. We want free and fair elections.

Election by july is not a mater but reforms first 0 thank yu

Can courts nullify agreements btwin 2 or more parties? I feel the GPA takes precedence.

We just need free and fair elections.

As Zimbabweans we lost the pot when we signed the GPA so we have to abide by what SADC says or we go back to where SADC fished us .

I think Mugabe is quite aware that his party is almost half way thru with rigging process esp on the question of the VOTERS' ROLL. I suspect that ZANU PF has already compiled a list of eligible voters who support other parties especially MDC-T supporters. These people may find their names missing in the VOTERS' ROLL on the election day despite the fact that their names may be appearing in the voters' rolls in the current inspection exercise. That way some people will be disenfranchised. I suggest that the voters' rolls being used for inspection should be on 'stand by' at every polling station so that they'll be used to cross check names of people who will not have appeared in voters' rolls used on the election day. But still that won't be possible to avail these voters' rolls (for "stand by") at every polling stn becoz ZEC has currently issued one voters' roll per WARD with many polling stns. I feel the current exercise to register and inspect names is a project to hoodwink the outside. I also don't trust ZEC and voters' rolls that are run by Tobaiwa Mudede's office becoz he is biased in favour of ZANU PF

Zim must ensure completion of necessary reforms for holding free and fair elections.

FORWARD EVER ! BACKWARD NEVER.

Hard choice. The day itself is not a problem. It's the insignificance.

Mugabe want to die in power and the ple around him want to be protected from the looting they have done we are to have the libyan style if we are to dislodge mugabe from power

Voter registration continues to be delayed by the Mudede people and not all will be able to vote by that time.Also the security reforms are not in place and there is no intention to reform.Sadac will have to use force if need be with the help of South Africa.This is the only language ZANU PF understands.

Morgen is right.

Slow but sure Lets complete GNU 1st and go for election freely

Kubatana's subscribers on 31 July Election Announcement

The security forces should withdraw their statements of saying they will not support an opposition government before elections are held.

Mugabe's move should be resisted as the country will not be ready for elections by that date.

I don't think kuti zvinoshanda mugabe akazviita oga our president Tsvangirai vasipo GPA irikushanda papi AIPA and POSA ngazvibve election september

ITS BETTER OCTOBER OR NOVEMBER

No reforms no election

July 31 is too early. Vanenge vacampaigner nguvai? (When will they campaign?) October will be better say no to election

Zimbabwe is definitely not ready for elections yet. I agree with Morgan.

Date to be set by progress on processes like vigorous voter registration and availability of funds: if funds & reg is not available how can we be resourced & elections

MT is right. This not on without the outstanding reforms.

More time is needed 31 July is too early for Zimbabwe to have a credible election considering logistics at July is too early

Elections have to wait till all electoral laws have been adhered to.

Let's. Continue with unity govt coz the results can bring chaos into the country

No elections till October

Constitutional reforms key to legitimate poll.

MT is hundred percent right coz at we all thought he has been swalloed but we now know

Anywhere nothing wrong about date MT knows Zimbabwe don't have money to do election let them talk

Why can't we wait and follow the SADAC roadmap. I think it will lead us somewhere

There is something with dates that we do not know, but later the better

Sure we not ready & election yet till the outstanding differences are resolved. No to chaos so soon

Mugabe is not learning from his 2008 mistake. Certainly it will be an illegitimate election.

The date is not practical

Hazviiti kana pasina kutendarana kwe GPA

People expect leaders who put the nation first. Not another June 29

It's not democratic and unconstitutional according to the GPA. The President proves his dictatorship, and otherwise he would accept defeat in the next election since he is not following what is in our agreement.

Reforms first

No to July

ELECTION DATE MUST BE SET NOT EARLY THAN OCTOBER

Mugabe is suffering from verbal diarrhoea

No ways. Reforms first. Why can't they just even the playing field, what's the rush for? They are so used to fast-tracks that they think elections can also be fast-tracked.

I think there must be an election roadmap before we have elections to allow free and fair elections let the worst is to be witnessed

One can't be declared a winner if one is in a race on his own. NO TO A GNU AGAIN. PULL OUT.

Reforms in media and security are critical issues we all need to be addressed first before elections. Don't need a 2008 scenario again.

MT allowed himself cheated. He should pull out and try again after 5 years of our suffering under the incoming govt.

From my own opinion, is they must not rush to held election whilst there is something needs to be sorted out, free & fair election.

One man race again

Implement all reforms first then free and fair election. Finally a LEGITIMATE GOVT. Respected world over.

No election before the road map is complete

Reregistration should be done first. Some wards not registered.

Something must be done in Zim coz security sector is busy campaigning esp Zps staff so we say no to this

There's nothing to vote. Let them work together till we see the proceedings from the 2 parties. Unity govt should strengthen industry and job creation. Nothing to rush until we have a better life.

Akura mudhara uyu kufunga kwavekumunetsa

Kubatana's subscribers on 31 July Election Announcement

Too premature to have an election there will be blood bath ,and rigging at its pick

Tsvangira is right, why shold we go election ,when army and state radiostation belong to one pltly party..

Tsvangirai is right

Moer people still need more time to register & people need to be toute the importenc off registering & voting

Mugabe can not take us for a ride.We will not accept this, but however should the elections go ahead,Mugabe will not win as we will vote in millions for Tsvangirai.

They must not take us as fools becoz they are together

Its most likely the PM and his allies will boycott poll

I think,we as Zimbabweans we should blocl this date untill all reforms and the roadmap is clean

If the playing field was fair why rush? The constitutional court's rulling was unconstional in that the rulling was not derived from the new constitution.

All reforms first

I Go With M T What Ever He Says

It's impossible to hold elections July 31st 2013 becoz only 47days to go regestration of voters nt complete no time for parties to campaign

Mugabe nedare rake haana simba rekurara zuva resarudzo, vaTsvangirai vasingazivi uye asina kupiwa mvumo

As per what I can see my self, I think its premature to set election date before they implement all outstanding issues. If we do that, we are heading to another disputed elections.

Date only after all reform agreed upon

As amatter of discution i think situation must be put to table and enable all stake holders to handle the differences

We don t want people who dectate a pace for others there shld be a consensous on the election date

Elections are impossible PM holds the key for legitimate elections.

Its nosence. Howcan be yet people are busy registering up to 9th july. Plus 14 days before nomination day. L think there is a hiden agender surely.

Vamugabe vangavapedza zvakabvumiranwa pa gpa here uye zvirimubumbiro zvese zvavakushanda here kana zvisati election kwete

There shd be adquate consensus with other G.P.A principals and stkholdas. If not, its a coup detaa.

Thanks 4 the update ,but its bad news 2 some of who witnessed the 2008 elections rerun.I think all reforms must be implemented be4 they are held.why not say Oct.lets pray 4 our country.

NO TO HURRIED ELECTION B4 COMPLETION OF ROADMAP

I think that they are not thinking.

I should think lets consider what the constitution and the decisions of the judiciary and the powers of the Presidium as enshrined in the constitution to decide lets have them people have suffered enough lets not bank on peopl

Why are they rushing they want to rig the elections,reforms first

We don't ve problem with any date proposed wat we need is reforms of security sector and media to avoid state sponserd violents beside that election no no no!

The enviroment is not yet condu cive for good election.

Let there be no elections forever.

PM. MT IS 100 PERCENT RIGHT TO REJECTS ZIM BEING RAIROADE INTO ANOTHER ILLEGITIMATE ELECTON. PLEASE MT MUST NEVER GO INTO BLOOD ELLECTIONS. MT IS ON BALL AT A PENALT SPORT VS GM AT GOALPOSTS, THE TIME IS 89MIN FOR THE MUCH TO END, MT MUST TAKE HIS TIME STUDY GM AND SEND HIM WRONG SIDE SO WILL SCORE ON EMPTY NETT

M T good' cison.I say no to another Hiroshima maelections kana zvokodzera 31 july bodo!

We can nt have another G.N.U.after rushing into an election without media and security sector reforms.African

Union and Sadc mst tell Mugabe and Tsvangirai to implement all that was agreed.What is it that Zanu Pf fears.No
